1. The following is an examiner's statement of reasons for allowance: The applicant has perfected priority to obviate most of the references. The applicant is correct in that the rejections over Harigaya et al. did not exemplify the case where the Ga was present in a larger amount than the Ge. The applicant has data in figures 5 and 7 that evidences that the jitter is reduced for larger numbers of overwrites when Mn is present for high recording rates. JP 2002-096560 teaches toward the addition of other elements, such as N,Bi,Sn,Si,Al,In,Se,Se,Cr,Ag, and the secondary reference does not reasonably establish the equivalence or superiority of Mn over these or address the effects evidenced in the cited figures.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Martin J. Angebrannndt whose telephone number is 571-272-1378. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Huff can be reached on 571-272-1385. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
